Press releases

[SHELTON PETROLEUM AB: SHELTON PETROLEUM READY TO SELL ITS FIRST RUSSIAN OIL](#)

2010-04-19

(NGM: SHEL B) Shelton Petroleum has now completed a successful production test of the second exploration well (RS#2) on the Rustamovskoye field in Bashkiria, Russia. Production wells indicate that the well is capable of producing 200 barrels per day. This is the last step in the Rustamovskoye exploration program, and the plan is for Shelton Petroleum to sell its first oil in Russia as early as this summer. The commercial flow rates provide the company with enough support to commence a large-scale field development program involving the drilling of production wells. Shelton already produces oil from the Lelyaki field near Poltava in Ukraine.

[PETROSIBIR AB: EXPANSION CONTINUES WITH THIRD LICENSE](#)

2009-10-08

(NGM:PETS B) Petrosibir has been awarded yet another license in the Russian republic of Bashkiria. With an area of 300 square kilometers, the new license Suyanovskoye is the largest thus far for the company and is surrounded by other producing oil fields. In less than a month, Petrosibir has increased its original total license area by a factor of ten, resulting in a continuous block of 540 square kilometers.

[PETROSIBIR AB: SHELTON PROVIDES OPERATIONAL UPDATE](#)

2009-10-08

(NGM:PETS B) On 15 July 2009, Petrosibir announced that it had entered into a merger agreement with Shelton Canada Corp., a publicly traded Canadian company listed on the Toronto Venture

Exchange ("TSX-V") in Canada (STO.V). Shelton recently published a press release with the following operational update.

[PETROSIBIR AB: GOOD OIL FLOW RATES FROM PETROSIBIR'S SECOND WELL](#)

2009-10-02

Petrosibir has completed the drilling of the second of two exploration wells in its Rustamovskoye field in the Russian republic of Bashkiria. Oil and gas have been found also in the second well. A recently completed drill stem test in the second well indicated an extrapolated well flow rate of 700 barrels per day.

[PETROSIBIR AB: UPDATE ON PETROSIBIR-SHELTON MERGER](#)

2009-10-02

Since the announcement concerning the intended business combination, Petrosibir and Shelton have conducted visits of each other's operations in Russia and Ukraine, respectively, and taken several steps to complete the merger. Petrosibir and Shelton are very satisfied with the increased knowledge that has been gathered about the companies' licenses and operations. Shelton intends to hold an extraordinary meeting of shareholders on 6 November 2009.

[PETROSIBIR AB: PETROSIBIR AWARDED NEW LICENSE IN BASHKIRIA](#)

2009-09-21

(NGM:PETS B) Petrosibir has been awarded a new exploration license in the Russian republic of Bashkiria. The new license area, Aysky, is 187 square kilometers and lies directly to the east of the company's first license area, Rustamovskoye. The awarding of the Aysky license means that the company's total license area has more than quadrupled to a surface area of 240 square kilometers.

[PETROSIBIR AB: PETROSIBIR RECRUITS CFO](#)

2009-09-03

(NGM:PETS B) Petrosibir is delighted to announce today that Joakim Hedlund joins the company as chief financial officer. Hedlund brings with him considerable experience and expertise, having most recently spent more than nine years in the investment banking division at Carnegie Investment Bank AB in Stockholm.

[PETROSIBIR AB: PETROSIBIR REGISTERS FIRST RESERVES](#)

2009-08-19

(NGM: PETS B) Following the success of its exploration program, Petrosibir has now registered its first reserves from the Rustamovskoye license block with the Russian state reserves committee. Registered proven and probable reserves (C1 + C2 in the Russian classification system) amount to approx. 10 million barrels of oil. The reserve calculation covers only the northern part of the Rustamovskoye license block and is based solely on the first well. Petrosibir anticipates a gradual increase in reserves as the exploration program progresses.

[PETROSIBIR AB: UPDATE TO TRANSACTION SCHEDULE IN MERGER OF PETROSIBIR AND SHELTON](#)

2009-07-20

Structure of the transaction Petrosibir's merger with Shelton will be effected as a Plan of Arrangement under Canadian law, in which Petrosibir (via a Canadian subsidiary) merges with Shelton. Among other things, the merger is conditional upon approval at an extraordinary meeting of Shelton shareholders, which is scheduled to be held before the end of the month of September. In order to be declared valid, a resolution must be passed by a two-thirds majority of the shares represented at the meeting. If this occurs and the other conditions for the transaction are also met, Petrosibir will acquire all of Shelton's outstanding shares, subscription options, warrants and convertibles, and the holders of these securities will receive newly-issued B-shares in Petrosibir in return. Shelton will then become a wholly-owned subsidiary of Petrosibir. The merger is thus based on the decision taken at the extraordinary meeting of Shelton's shareholders and not on a public offering by Petrosibir to each of Shelton's shareholders. Acquisitions by way of Plans of Arrangement are commonplace in Canada, and they have been applied in multiple transactions with a Swedish link, including Lundin Petroleum's

acquisition of Valkyries Petroleum, Lundin Mining's acquisition of EuroZinc Mining, and Tenke Mining and SSAB's acquisition of IPSCO.
